

Electronic Diploma

Instructions for Graduates on Downloading Their Diploma

Vamia uses the Atomi service, where you can download electronically signed documents, such as your diploma and transcript of records.

Starting from March 3, 2025, diplomas will be issued only in electronic form via the Atomi service.

The electronic student administration Atomi service can be accessed at:

<https://vamia-prd.atomi-education.prd.studyo.fi/student>

1. Log in to Atomi using your school O365 credentials, i.e., your email address (firstname.lastname@student.vaasa.fi). Please note that your login credentials will remain valid for 30 days after graduation.
2. Download and save your diploma to your device.

Your electronic diploma is the only official and original document. Do not edit the document! Do not open the diploma in Word's editing mode or attempt to modify it in any way, as this will break the electronic certification.

A paper copy of the diploma may be provided temporarily during the transition period, but it is not an official diploma.

It is highly recommended to keep the diploma in electronic form, as its authenticity can always be verified through validation services. A printed version cannot be verified in the same way. You can verify the authenticity of your electronically signed diploma using Atomi Validator:

<https://vamia.fi/en/studying/certificate-services/>

or The Finnish Digital and Population Data Services Agency's Validation Service:

<https://dvv.fineid.fi/en/validation>

Your downloaded diploma will remain stored in the service and will be accessible as long as your O365 login credentials are valid.
