Electronic Certificate

Instructions for Graduates on Downloading Their Certificate

Vamia uses the Atomi service, where you can download electronically signed documents, such as Your Certificate and transcript of records.

Starting from March 3, 2025, Certificates will be issued only in electronic form via the Atomi service.

The electronic student administration Atomi service can be accessed at:
https://vamia-prd.atomi-education.prd.studyo.fi/student

1. Log in to Atomi using Your school O365 credentials, i.e., Your email address (firstname.lastname@student.vaasa.fi). Please note that Your login credentials will remain valid for 30 days after graduation.

2. Download and save Your Certificate to Your device.

Your electronic Certificate is the only official and original document. Do not edit the document! Do not open the Certificate in Word's editing mode or attempt to modify it in any way, as this will break the electronic certification.

A paper copy of the Certificate may be provided temporarily during the transition period, but it **is not an official Certificate.**

It is highly recommended to keep the Certificate in electronic form, as its authenticity can always be verified through validation services. A printed version cannot be verified in the same way. You can verify the authenticity of Your electronically signed Certificate using Atomi Validator:

https://vamia.fi/en/studying/certificate-services/

or The Finnish Digital and Population Data Services Agency's Validation Service:
https://dvv.fineid.fi/en/validation

Your downloaded Certificate will remain stored in the service and will be accessible as long as Your O365 login credentials are valid.
